PROJECTS

GAZEETER:

This web application allows users to explore a world map with geographical data, access Wikipedia articles related to selected locations, and obtain real-time weather information from the nearest weather station.

- **Technology:** Bootstrap, HTML, CSS, JavaScript, jQuery, PHP, Leaflet, API.
- **GitHub:** <https://github.com/SaidiMohammed/Gazeeter/>
- **Demo:** <https://worldmap.mohammedsaidi.co.uk/>

JAMMMING:

This website is a React web application that allows users to build and add Spotify playlists by connecting and authenticating to a user's account and searching for Tracks, Artists, or Albums through the Spotify API.

- **Technology:** HTML, CSS, React, API, JavaScript
- **GitHub:** <https://github.com/SaidiMohammed/Jammming>
- **Demo:** <https://jammming.mohammedsaidi.co.uk/>

ECOMMERCE WEBSITE:

Creating an ecommerce website using the React framework which involves building a dynamic application that allows users to perform CRUD operations on products and orders.

- **Technology:** HTML, Tailwind CSS, JavaScript, React, API, SQL
- **GitHub:** <https://github.com/SaidiMohammed/Skyfall627EcomWeb>

COMPANYDIRECTORY:

This website offers a user-friendly interface for managing and exploring your organization's structure, providing easy access to employee, department, and location information through CRUD operations.

- **Technology:** Bootstrap, HTML, CSS, JavaScript, jQuery, PHP, Leaflet, API.
- **GitHub:** <https://github.com/SaidiMohammed/CompanyDirectory>
- **Demo:** <https://companydirectory.mohammedsaidi.co.uk/>

INTERESTS

- **SWIMMING** – Diving in every chance I get, proving that a splash in the pool is just as refreshing as a cup of morning coffee.
- **DRAWING** – Always ready to sketch out a brilliant idea or, at the very least, an impressive doodle during a meeting.
- **NAPPING** – Perfecting the power of the nap, because even superheroes need a quick recharge!
